

MEDICAL SIMULATION

MEDICAL SIMULATION

SimClever

Ingenious Form of Medical Simulation

EASY, MOBILE & CONNECTED

- ▶ HAVELSAN Medical Simulation is a top-notch simulation and educational solution for all medical institutions.
- ▶ A mobile, user-friendly and cost effective solution that allows educators and students to communicate in different institutions.
- ▶ No need for a simulation center to perform medical trainings with our highly portable and compact simulator solutions.

KEY FEATURES

- ▶ Portable and Compact System
- ▶ Wearable Hybrid Simulation
- ▶ Training with Manikin, Dummy Model or Standard Patients
- ▶ Training in Any Environment; Classroom, Outpatient Clinic, Consulting Room, etc.
- ▶ Easy to Understand Simulation Training
- ▶ Step-by-Step Instructions
- ▶ Creation of Scenarios with User-Friendly Interface
- ▶ Detailed Debriefing Page Based on Today's Training Methodology

BEST SCENARIO SOFTWARE FOR SIMULATION-BASED EDUCATIONS

- ▶ Medical Simulation Scenario Software can control more than 7 external hybrid modules.
- ▶ Hybrid Stethoscope
- ▶ Patient Monitor
- ▶ Laboratory Module
- ▶ Radiology Module
- ▶ Digital Hybrid Laryngoscope
- ▶ Mechanical Ventilator Simulator
- ▶ Hybrid Defibrillator
- ▶ Hybrid Pulse Generator
