

SHOOTING SIMULATOR

 **HAVELSAN**

SHOOTING SIMULATOR

HAVELSAN has developed Shooting Simulator to improve the weapon handling skills of security forces and law enforcement personnel working in combat and conflict areas under realistic scenarios makes significant contributions to the successful conclusion of the operation by preventing the losses that would occur during the operation.

GENERAL FEATURES

- ▶ Basic Marksmanship Training
- ▶ Interactive Video Tutorials
- ▶ Virtual Combat Trainer
- ▶ Post-Training Evaluation
- ▶ Interactive individual or team training in virtual environment against virtual players / targets
- ▶ Ability to define any environment

BENEFITS

- ▶ Improvement of shooting techniques
- ▶ Repeatable and controlled environment
- ▶ Cost-effective solution
- ▶ Consistent training experience

TECHNICAL FEATURES

- ▶ Different types of weapons and related realistic ballistic models G3, HK33, AK4, MP5, Glock19, MG3, PKM etc.
- ▶ Recoil kits (Electric or gas-operated) and laser kits (IR or visible)
- ▶ Projector and Imaging System
- ▶ Instructor's Station
 - Tactical Environment Simulation
 - Scenario Database Creation
- ▶ Image Generator
 - Realistic Scenarios
 - 3D Models
 - Various Weather Conditions
- ▶ Networking with other systems / simulators
- ▶ Recoil or non-recoil weapons
