TRAINING RANGE

MILITARY OPERATION ON URBAN
TERRAIN TRAINING RANGE

MOUT TRAINING RANGE

MOUT is a training range that replicates urbanized terrain and provides a complex and challenging environment in which military actions can be planned and conducted, allowing military personnel to develop tactics specific to urban environments and challenges they may face in urban warfare situations.

TECHNICAL FEATURES

- ▶ 7000 - 15000 m² area or more
- ▶ Single, double or multi-story buildings
- ▶ Numerous rooms, corridors and loopholes
- ▶ Secret passage tunnels
- ▶ Moving targets
- ▶ Explosive simulators
- ▶ Different types of booby traps and mine/IED
- ▶ Pressure adjustable doors
- ▶ Smoke and light effect generators
- ▶ Camera and recording system

BENEFITS

- ▶ Situational awareness
- ▶ Practicing of technical and tactical operations
- ▶ Breaching techniques of buildings and clearing of buildings/rooms
- ▶ Door and gate breaching techniques
- ▶ Evacuation techniques
- ▶ Hand grenade, B/A usage
- ▶ Use of armored vehicles and armored vehicle-pedestrian element collaboration
- ▶ Fire positions and nearby safety

EXCON CENTER

- ▶ Controls training area, targets, effect generators and scenarios
- ▶ Ability to control 3 independent training at the same time for maximize efficiency
- ▶ Report generation for easy quantification and consideration
- ▶ Runs on mobile devices
