Secure and High Performance Meetings

Greet your audience in the lobby and prevent unauthorized access with room lock and encryption.

Data is secure on your own corporate servers with the On Premise Installation option.

User Friendly Interface

You can create or attend a meeting in seconds thanks to HAVELSAN Dialog's user friendly interface.

User information can be easily managed from the profile screen and a profile photo can be added to appear in the meeting.

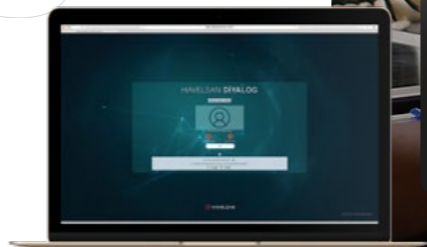

On the meeting creation screen, meetings can be scheduled on the defined day and time and invitations can be sent to other participants.

At the end of the meeting, all the details of the meetings can be easily viewed on the report that is automatically saved on the computer.

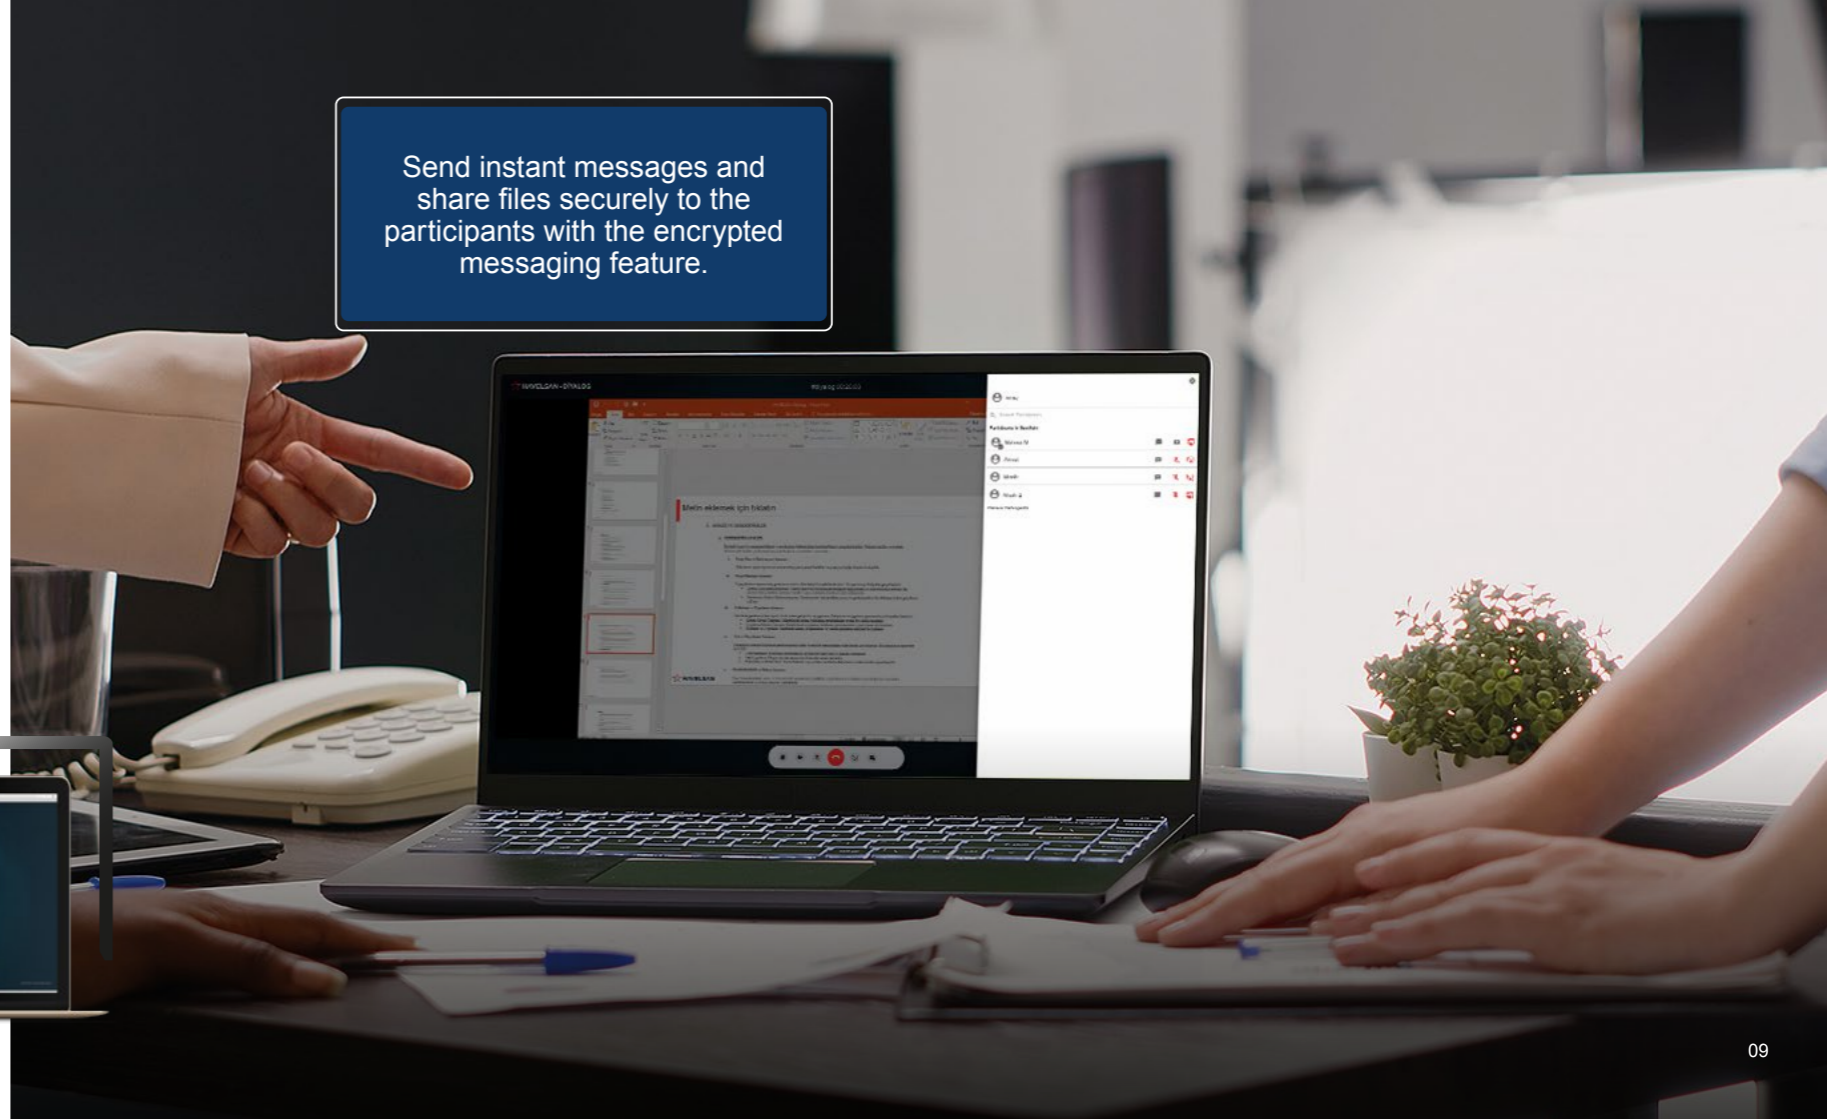

1 Enter Room Name
